

EE 442-448 Lab Announcements

I. Pre-lab Worksheet

A separate sheet of Pre-lab answer is due at the beginning of each lab and weighs 40% of the lab grade. This answer sheet should contain all the answers to the pre-lab questions. Detailed steps are needed if calculations are involved. Failure to turn it in at the beginning of the lab will result in a score of 0. Only for unavoidable reasons, late submission is accepted, but will receive a 50% grade deduction.

II. Lab Report

Lab report is due at the end of each lab section and weighs 50% of the lab grades. This report should contain all the laboratory measurements and observations. Necessary steps of calculations should be shown.

III. Popup Quizzes

There will be popup lab quizzes during the semester and will weigh 10% of the lab grade. These quizzes will cover pre-lab information from the current lab and all information from the previous labs. There is no make-up for these quizzes except permission from the instructor.

IV. Make-up Policy

Students should attend all their lab sections in order to obtain a pass grade for this class. Make-up labs are only permitted based on instructor's approval and should be brought up for consideration at least the previous week.
