Additional Comments:

Really like the concept of the Wiki, the fact that the instructor takes time to create new assignments, and the idea of the Anonymous Course Feedback used in this class as well as CprE185/ComS207.

Didn't really enjoy the depth in which psychology was discussed. I think that should be a separate course by itself.

I truly enjoyed this class. The HW's were killers. I felt sometimes lost with what I need learn and accomplish. Sometimes, the instructions were not clear to how ~~it~~ it should be done (I realize no true answers were not available though). I hoped I had more time learning & working on HW's to truly understand/master Matlab/C++.

Lectures were great. As Alex said at the beginning, ~~it~~ it was seminar style. I enjoyed overall.

Suggestions:

It would be nice if there were more clear instructions/tutorials of Matlab. ~~It~~ It would also nice to offer after hour TA office hours. Via online or face-to-face. During a day was little tough when we have other commitments. But again, you ~~provided~~ provided a lot of hours by TAs. Thank you!!

◦ Help with getting the programs (agency) to work correctly would have been nice. The TA's were not that helpful.

◦ I disagree that students want less for their money. Fast Food stores ~~don't~~ make us cook our own burgers, do they?

◦ More help with code would be appreciated. The ~~matlab~~ matlab code examples the first week(s) were very helpful and I thought the rest of the class would work as such. ~~without those~~ without those hints, the rest of the class was a lot more difficult.

Additional Comments:

*It would be helpful to know how I have done on homework assignments. The only feedback we have gotten from our work has been on our project proposals, which were graded by other students. I therefore really have no idea whether I am close to failing this class or whether I am getting an A in the class.*

Additional Comments:

THIS was an extremely difficult class. I entered this class only with Matlab experience (and little at that) and was quickly left in the dust concerning the homeworks. OpenCV has been extremely difficult to even compile and be able to use I would have appreciated recitations or crash-courses in using OpenCV and C++ to work on the homeworks & projects.
