Additional Comments:

This class has provided a lot of insight into the fields of computational perception, psychology, and robotics that I would not have otherwise learned. There was a good mix of theory, real-world examples, and practical applications.

The homework was arduous and stressful, but it challenged me to learn several new languages, libraries and software tools. Perhaps a more staggered homework deadline would encourage more people (including me) to start earlier on the homework.

It was a lot of fun and thanks for teaching!

First of all this class is hard. I've spent weeks of my life working on all the homeworks and projects for this course in hopes of passing. That said, I learned a lot and would like others to have the same opportunities in the future. Still a disclaimer that everything requested out of you might not be possible would ease my nerves.

Alex, it has been a wonderful year!
I'm glad to have this opportunity and
I have thoroughly enjoyed your lectures/
talks/jokes.

The class was difficult, but fun
and very informative! I have
become an excellent programmer
and better student for taking this
class.

Thanks for everything
and don't be afraid to share
your secret projects! ;)

I kid, but I will be watching
your future papers.

Additional Comments:

I enjoyed the class. The subject was interesting and well taught.

We need feedback on the homework. I haven't the slightest idea how I am doing because we haven't received any feedback on any of our work.

I would like to see more taught on 2D image processing and neural networks.

There was way too much homework for this course, and it was (truly, we looked it up) impossible in many circumstances. I worked over 20 hours on each homework. The professor did not have clear expectations for what was a good job on the assignments because they were ridiculously difficult. We never got any comments back on how we did. It was learning through desperation about how things work practically.

Additional Comments:

I really enjoyed most of the course. The last few lectures on how the nervous system works seemed out of place and did not hold my interest. I would have preferred more homework instead of a large project that needs to be somewhat novel.

Lectures on some topics were too slow. Homeworks were fun and challenging but seemed to have a very narrow focus (e.g. pitch recognition is a very small aspect of audio processing), but perhaps this can't be avoided. Overall, it was a fun, worthwhile class.
