

Tutorial: Studio - Animations

Project Management (Folders)

Create / use the appropriate Inventor project (see below)

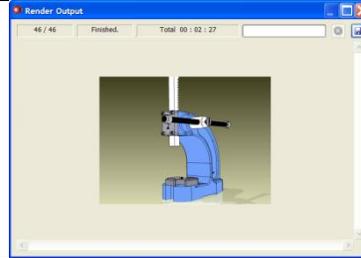

1. Start Inventor
2. Close any open files
3. Select: Projects
4. Verify the appropriate settings
 - a. Workspace
 - b. Library
 - c. Content Center Files

Tutorial - File Management

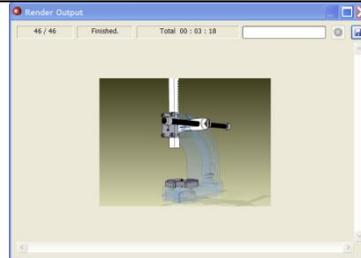

1. Instructions for this tutorial are in the Autodesk Software
 - a. Select: Tutorials | Experienced Users | Studio - Animations
2. Do not use the folders / project indicated in the tutorial. Use the folders / project defined above
3. Required files are in the library. These files can't be modified
 - a. If the assemblies require modification, do the following
 - i. File | Save-As: save them into the workspace
 - b. If parts in the assembly require modification
 - i. Open / Edit the part
 - ii. File | Save-as: Save the part into the workspace
 - iii. Select the part in the model tree, replace it with the part that was saved in the workspace
4. Continue with the rest of the tutorial.

File: MyArborPress.iam

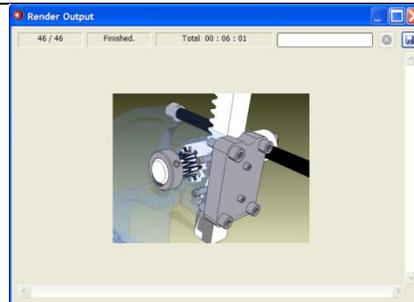

File: Animate constraints.wmv

File: Animate fade. wmv

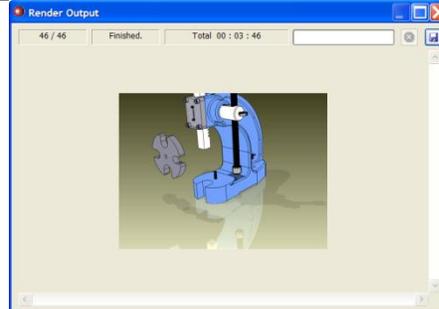

File: Animate Cameral.wmv

File: MyArborPress2.iam

File: Animate Components.wmv

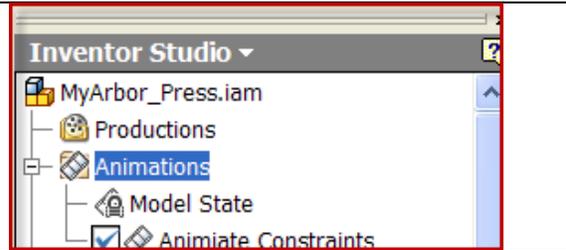

Notes:

1. Save the animations

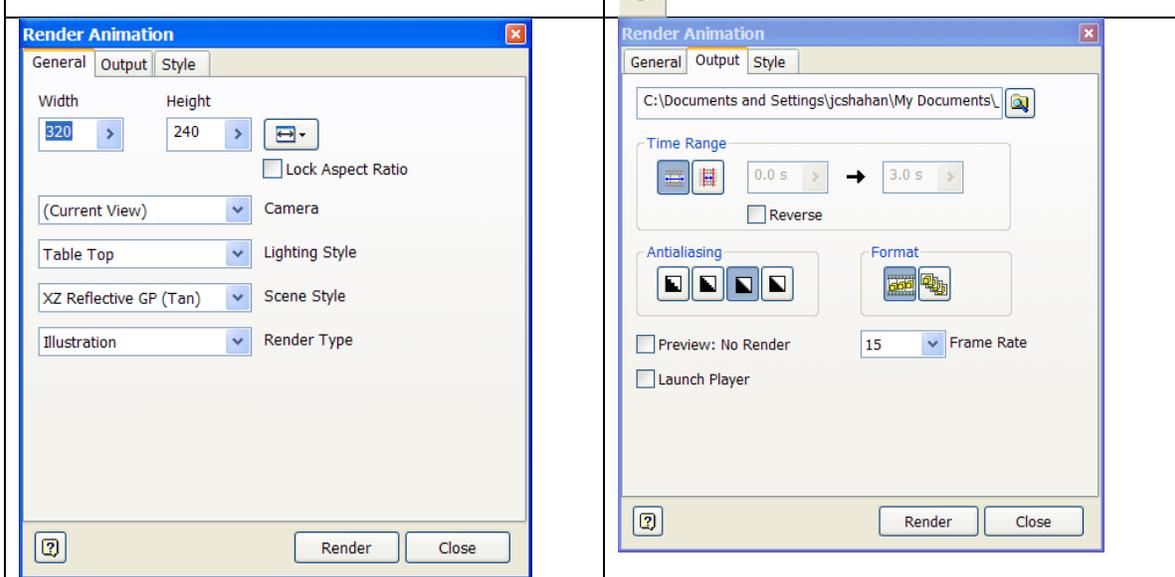

Right-click Animation

1. New
2. Change the Name.
