

CE105 CIVIL ENGINEERING PROJECTS
FALL 2009

How to make up an assignment using a leniency ticket.

1. If you have missed a lecture you can use one of the leniency tickets to make up the deficiency.
2. You have three weeks (more or less) to make up a missed class using a leniency ticket. Find an interesting lecture on campus (ASCE, TSA, AGC, etc. have regular speaker meetings that would qualify) and attend the lecture. If you have trouble finding something interesting and relevant to civil engineering see: <http://event.iastate.edu/> for a list of lectures on campus.
3. Within one week of the speaker meeting, submit a report on the talk. Include in the report the following information:
 - a. who was speaking
 - b. when was the talk
 - c. where was it held
 - d. what was the title
 - e. what was the talk about
 - f. what were at least three main points from the talk
 - g. be sure to include good grammar and paper format and keep your write up to one page, double spaced.
 - h. turn in your report in-class or in the folder outside 375 Town Engineering Building with the leniency ticket attached to the report.
