

2006 Term Paper Topics

Carroll, Jason	Bioremediation of environmentally contaminated mining sites
Charlson, Joe	Bioremediation of heavy metals
Gangba, Koffi	Bioherbicides to control agricultural weeds
Golding, Lynnea	Bioremediation of hazardous waste
Hawkins, Alison	Bioremediation of oil spills
Hesse, Jeff	Presence and reduction of eutrophication in aquatic systems
Hollerung, John	Phytoremediation of soils
Kambam, Yashodhara	Potable Water Treatment
Khanjo, Isha	Nutrient removal from wastewater by wetland systems
Lim, Seung Joo	Comparisons between the UASB and the EGSB reactor
Morud, Jennifer	Water Reclamation
Onuki, Shinnosuke	The assessment of the suitability of the Solid phase microextraction (SPME) for the analysis of organic compounds in water
Reiner, Jeremy	Bioremediation of petroleum contaminated soils
Shepherd, Tim	Bio-methane potential of agricultural wastes
Torczon, Mark	Constructed wetlands
Vincent, Miki	Microbial Bioremediation of Total Petroleum Hydrocarbons (TPH) in Oil Sludge Wastes
Williams, Jera	Bioremediation of Contaminated soils
